# Wooden Bike Shelter

The Wooden Bike Shelter is an attractive cycle parking solution that is perfect for those seeking an environmentally sustainable solution.

This product is made from FSC sourced softwood cladding and comes with swing or sliding gates.

Our minimum size parks ten bicycles and the shelter can be extended to park 20, 30 and 40 bicycles. This product is ideal for offices, apartment blocks or schools.

## Specification

2100 x 2200mm

Length for 10 bikes: 4100 mm

Length for 20 bikes: 8200 mm

Length for 30 bikes: 12300 mm

FSC sourced wooden clad panels

Galvanised or polyester powder coated

Our minimum size parks ten bicycles and the shelter can be extended to park 20,30 and 40 bicycles

Swing or sliding gates

Can be supplied with bike racks in a galvanised finish

Made in Britain

## Mesh Bike Shelter

The Mesh Bike Shelter is an extremely secure and robust bike storage unit for 10 bicycles. This high security shelter is made from galvanised or powder coated steel and is clad with mesh exterior which allows easy surveillance of the bikes. This product has the option of being clad with prison mesh which is designed so that it cannot be cut through with bolt cutters. Optional secure padlocks can be used to lock the gates.

The Mesh Bike Shelter is ideal with Sheffield Stands enabling the users to lock up their bikes individually and offering more protection against theft and vandalism.

### Specification

4100 x 2100 x 2200mm

Standard mesh or 358 prison mesh available

Cycle shelter comes with optional swing gates with padlocks available

One cycle shelter parks 10 bicycles

Cycle shelter frame galvanised or powder coated
